With its mission to promote safe, effective and affordable healthcare, GHF functions as a viable platform for knowledge sharing, collaboration and advocacy uniting practitioners and researchers around the world.

In association with:

Central Council for Research in Homoeopathy (CCRH)

What's Unique?

The word "EXPLORA" embodies the spirit of exploration – a quest for discovering knowledge and innovation. True to its name, EXPLORA 2025 will serve as a platform where tradition meets scientific progress, where global experts, practitioners, researchers and students unite to share ideas, experience and breakthrough in the art and science of Homoeopathy.
